

Together - We CAN Take Wake Schools Back!

Take Wake Schools Back is a PAC (Political Action Committee) formed in response to outrage by the parents, students and taxpayers of Wake County to policies implemented by the current Wake County School Board. Our goal is to **raise money** in order to identify and support four school board candidates in the upcoming October election who will bring accountability back to the Wake County Public School System (WCPSS).

The Core Values of Take Wake Schools Back Are:

- **Community schools** – Use of busing only to ease overcrowding as a short-term solution, while new schools are built in the neighborhoods that need them now
- **Accountability** – A Wake County School Board that is accountable to Wake parents, students and taxpayers
- **Flexibility** – Revision of the student assignment policy, which includes recognizing families as individuals rather than nodes within a system
- **Transparency** – Support of at-large school board elections, in addition to the need for a full capacity audit of the schools
- **Excellence** – Commitment to improving the quality of education via use of common sense above social engineering as well as coherent and content-rich curriculum standards.

We need your help in supporting four new school board candidates because we are going to face formidable opposition from the deeply-entrenched status

quo.
